DISCUSSION ON VIDEO CONFERENCING PROPOSAL

 Mayor Fribis asked if anyone had any comments regarding video conferencing. Attorney Jones explained the draft ordinance. He followed the Missouri Municipal League video conference policy. Attorney Jones stated he added Section 2-34 which is not part of MML policy titled journal of minutes and records of voting. This is part of the Sunshine Law regarding journalizing of minutes and record of voting. This will be inserted (if this bills passes) into the City's code immediately before the video conferencing policy. Attorney Jones stated he inserted the language of the Sunshine Law excerpt the references to Section 2-35 which is video conferencing policy. Attorney Jones stated that if the board wants to pass an ordinance like this, we will be adopting word for word the section of the sunshine law with regards to minutes and voting. It then will accept the video conferencing policy which is an elaboration of what is permitted under the Sunshine Law.

Attorney Jones stated he made changes in the format from the MML policy most notably sub paragraph C. The frequency use of video conferencing attendance, Attorney Jones stated he inserted the "2" for the limitation of the number of meetings based on the last month's discussion. Attorney Jones stated he added the language unless otherwise approved by the members in physical attendance. Attorney Jones stated this way the board could waive this and allow more participation through video conference.

Additional discussion and viewpoints were heard from several board members regarding the use of I-pads (viewing and videotaping), if eight I-pads were present does this constitutes a quorum, duties of an alderman, past absentees of previous board members, possibly changing work schedules or meeting nights. Attorney Jones answered some of these questions referring to the MML policy.

Ordinance for suspension of the rules for 2nd reading of a bill (Section 2-31)

Mayor Fribis stated she has noticed in the last few years that more and more people are requesting second readings. Mayor Fribis feels there is not enough time for the Aldermen to discuss the issue between meetings. Attorney Jones stated Ballwin has a board policy manual and it states that if any Alderman votes against the second reading at the same meeting, it is held over until the next meeting.

Mayor Fribis said there will be times when issues do come up and votes are unanimous and it's okay. But if just one Alderman has a question it should be held over until next meeting. Discussion was held amongst several Aldermen and was decided to add this topic to next month's agenda.

Discussion of Bill #5 a Conditional Use Permit for 3751 S. Lindbergh Blvd. (Jimmy John's)

Alderman Musich read Bill #5.

Alderman Baebler distributed two documents one pertaining to the Department of Revenue driver guide. It states that a two lane-left turn lane are not to be used as travel lanes nor can a vehicle drive more than 500 feet, or use to enter the roadway from the side street. Alderman Baebler stated she has witnessed this and could see how this would be a problem and a bigger problem with the drive-thru restaurant.

Alderman Baebler referenced Sunset Hills Code of Ordinances regarding vehicles driving on right half of roadway and not on shoulder of roads. Alderman Baebler compared other restaurants to the size of their lots, whereas Jimmy John's has two other facilities on a 1.18 acre. Lengthy discussion and questions from the Board directed to Alderman Baebler pertaining to what exactly the residents are against, possible compromising between the residents and developer, parking spaces, and entrance from Lindbergh.

Discussion of Bills #6 and #7 regarding Despotis Trust petitions for a Change of Zoning and Preliminary Development Plan

Alderman Krueger read Bill #6 and #7.

Alderman Baebler stated that residential voters are interested in building on this property. Alderman Baebler recapped all the different suggestions on what to build on these lots. Mr. Jones was asked how this plan got introduced on the agenda. Attorney Jones explained that a petition was submitted by the developer for re-zoning and for a development plan which then goes to planning and zoning then to the board. Mr. Jones was asked what happens if we deny this. Attorney Jones explained the previous litigation between Despotis Trust and City of Sunset Hills in which a judgment was granted in 1981. Additional questions from the aldermen were discussed. Alderman Baebler asked Attorney Jones if he has received the protest from the residents. Attorney Jones stated he has not seen one.

Alderman Kostial asked how many times something can be tabled. Attorney Jones replied if there is a good reason, indefinitely, but eventually if you have a matter before a vote is required within a reasonable amount of time. Planning and zoning is required to recommend within 90 days. Tabling for additional discussion for a month or two or longer is fine. Alderman Kostial asked if this petition is denied what are the legal ramifications, can they sue the City. Attorney Jones stated the court examines if the existing zoning is reasonable and not the City's decision to re zone it. Several questions and discussions regarding re-zoning, what lots Despotis owns, and leaving this residential were raised.

Request to meet in closed session for personnel and litigation pursuant to RSMo Sections 610.021 (1), (3) and (13).

Requests to be heard

PUBLIC HEARING: The City of Sunset Hills held a public hearing to discuss the allocation of \$22,000 in Community Development Block Grant funds which will become available after January 1, 2017.

Alderman Baebler read the public hearing. There were no questions or comments from any residents about the program or the handouts in the lobby.

The Mayor closed the Public Hearing.

Old Business

Bill No. 5 – An ordinance granting a Conditional Use Permit to Stephen Saladin, to construct and operate a drive-thru restaurant at 3751 South Lindbergh. Second Reading

Alderman Gau read Bill No. 5 for a second reading.

Mayor Fribis asked for any citizens comments.

Mr. Jerry Wallach, attorney, stated he represents the neighbors of this project. Mr. Wallach stated the concerns are the traffic and the left turn lane, the speaker associated with the drive thru, the noise, and the three businesses in a small area. Mr. Wallach noted that there is a Jimmy John's near his office and they can hear the speaker in their building. So the neighbors will be living with this sound also.

Mr. Mike Courtois of 3726 Sunset Chase was present and stated he hopes that all parties can reach a compromise. Mr. Courtois also reiterated the noise level, traffic problems, etc. Mr. Courtois stated the buffering for nearby residents, eliminating mature line of buffering trees and replacing them with a sunken fence and the overcrowded three use nature of the design were the concerns. Mr. Courtois stated that if alterations in the plan could be made to remove or moderate those problems, the residents would reconsider withdrawing our opposition.

Mr. Mark Doering of Doering Engineering and Steve Saladin of Jimmy John's were both present. Mr. Doering recapped some of the issues at hand. The buffering is in accordance with City requirements and a sound study was conducted and included with the application. The menu board and speaker are up at Lindbergh so the noise would be comparable to what is already coming from Lindbergh. The existing site has three buildings with three different uses on it right now. Mr. Doering then read line by line the City Ordinance on Conditional Use Permit approval. Mr. Doering stated his opinion that Jimmy John's has met all of the criteria listed.

Alderman Baebler stated the existing three buildings were not three different businesses. Mr. Doering stated he stands corrected. Alderman Baebler stated her burden is not only to comply with minimum standards but also to protect the residents' interests.

Alderman Bersche directed a question to Mr. Baker regarding the parking spaces and that the plan is over parked. What is the process to eliminate the parking spaces and bring the drive thru closer to get it away from the residential neighborhood? Alderman Bersche suggested the plan could have a berm, fence and have more buffering.

Mr. Baker said the drive-thru cannot be any further away from the residents. Mr. Baker stated regarding the parking spaces Jimmy John's would have to start the process over for getting the Conditional Use Permit, and then back to P&Z with an amended plan and then a variance from the Board of Adjustment. Mr. Baker stated in order to get a variance they have to prove a hardship on why they are getting rid of parking spaces. Alderman Bersche asked if the Board could expedite the process and explain the hardship so the residents and developer could have a middle ground. Mr. Baker said this would be possible but the plan would still have to meet the criteria. He also stated that it could get approved and if it didn't warrant a hardship then it could be denied.

Alderman Gau asked Attorney Jones can the Board of Alderman step in and grant or approve that plan without the Board of Adjustment granting the variance. Alderman Gau stated he thought the Board of Aldermen had the final say.

Attorney Jones answered the only way the Board would be able to approve it would be an amended ordinance that would reduce the number of parking spaces required in a particular site like this. Alderman Gau stated so the Board could take up modifying the ordinance rather than going to the Board of Adjustment. Attorney Jones answered correct.

Mr. Baker stated modifying the ordinance might not be best for the entire city but it is something the staff can look at. Mr. Baker stated he was planning on addressing it during the rewriting of the ordinance. Alderman Gau asked what the process is if the board wanted to expedite this, would this go first to Public Works, Planning & Zoning or the Board. Mr. Baker suggested presenting the ordinance at the next meeting. Mr. Jones stated it does not need to go to Planning and Zoning. Mr. Jones stated a previous discussion was to create a Lindbergh Blvd. overlay which would allow the City to relax setbacks and standards, buffers and things like

that in connection with site development approval. Alderman Gau mentioned another issue brought up was the entrance, and would like to see it wider, in and out. Mr. Saladin stated the traffic engineer wanted it narrower to elevate conflicts in the drive thru isle. Mr. Jones stated that if the developer needed to change more than just the entrance way it would need to go back to planning and zoning.

Alderman Bersche stated that if the changes just mentioned would be done and the parking spaces would be eliminated, making the buffer wider and has a berm with a privacy fence. Would that elevate some of the residents' concerns? Alderman Baebler stated she would still like to see a meeting and talk, before they go back to planning and zoning. Mr. Saladin stated in January he did meet with Mr. Courtois and Mr. Wyman and left the plans and some business cards. He stated he offered to get a meeting room but did not get any takers. Mr. Saladin stated he didn't feel the need to push it. Mr. Saladin said if all three parties involved wanted to get together then that would be fine with him. Alderman Musich asked Mr. Jones can the Board of Aldermen facilitate a meeting. Mr. Jones answered yes but if there is a majority of the Aldermen and it must be posted and made available to the public.

Mayor Fribis asked since this bill has been read a second time can it be tabled until all parties can meet and discuss this. Mr. Jones said yes it can be or the petition can be withdrawn. Mr. Jones stated there are several different ways to handle this, but the petition is only withdrawn by request of the petitioner. Alderman Price stated it can only be approved as it's written and if they meet and there are changes it will need to go through the process again. Mr. Jones stated that's right, so it would be better to table it pending the outcome of the meeting.

Alderman Musich addressed Mr. Saladin stating that this has to be frustrating just as it is with the residents and the Board. Alderman Musich asked if it was possible to sit down with Mr. Wallach, Mr. Courtois, the residents of Maret Drive and Sunset Chase and the (2) Ward One Aldermen and hammer this out.

Mr. Saladin stated he has sat down with Mr. Courtois who has a list, in which he wants the drive thru eliminated. Mr. Saladin response was this was a non-starter for him and would like to work on a resolution regarding the drive-thru staying or I will walk. Mr. Saladin stated that during the talk he had with Mr. Courtois he reiterated that they would do whatever they could to address the concerns. Mr. Saladin stated he would do whatever they asked as long as he could have the drive-thru.

Mr. Doering asked if this could be tabled for two weeks to see if any of these issues could be worked out together. Mr. Jones stated yes that request could be made; it's up to the board. Alderman Gau stated the issue that he is hearing is the buffering which relates to the noise which relates to the parking spots so he believes the Board needs to work on the ordinance.

Alderman Musich stated let's not do the work if it's not going to end up with a positive product. Alderman Musich stated the ordinance doesn't need to be changed or amended if it's not going to facilitate this project.

Brief conversation amongst Aldermen and Mr. Doering regarding the length of time spent on this process and realizes this is the second time presented to the Board. Mr. Saladin stated the process then would be to resubmit to planning and zoning, make a request for Board of Adjustment and then come back for a public hearing and come back in a month for another vote. Mr. Jones replied yes, with the new plan, the City could put together a new bill regarding

parking requirements. Mr. Jones also stated that if the City thoughtfully put a plan together for the Lindbergh overlay district, this should be taken lightly.

Alderman Musich made a motion to table Bill #5. Alderman Price seconded the motion.

Randy Schoeberg of 9 Roosevelt Drive stated he agrees with Ms. Scarlet. His concerns are that this will disturb the street and the nature. He stated residents on Roosevelt like their privacy.

Megan Gauthier of 14 Roosevelt Drive stated she just heard about this last evening. She gave an assessment of the quality of land and the forestry of the trees and wildlife. Ms. Gauthier stated the home at 13 Roosevelt could be a historical home and could be renovated.

Eric Thias of 13 Roosevelt Drive stated he supports the lot split but not demolition of the house.

Alderman Musich asked Mr. Thias to clarify if he is in favor of a lot split. Mr. Thias answered he is in favor of one, without destroying the original house. Alderman Musich explained according to the plan the lot split goes right through the middle of the house. Mr. Thias clarified that the split goes through the patio.

Alderman Musich addressed Mr. Baker regarding why a suggestion at the Planning and Zoning level was to raze the house. Mr. Baker responded the property is in disrepair and has code violations so the property needs to be repaired or demolished. Mr. Thias responded he is aware that it needs to be repaired. Mr. Baker stated the house needs to become in compliance. Mr. Baker stated he has been working with Ms. Thias who reviewed what it would financially take to make the necessary repairs and decided to ask for a lot split.

Nancy Thias and Lynn Staff sisters of Mr. Thias were present. Ms. Thias stated the property is willed to the two sisters and brother. Ms. Thias stated her mother has entrusted her and her sister Lynn with decisions regarding the property and that they have been granted power of attorney.

Alderman Gau made a motion to amend Bill #12 to state that the house has to be demolished before the record plat can be recorded. Alderman Musich seconded the motion and it was unanimously passed.

Alderman Colombo read Bill No. 13 for the first time.

From: Lynn Sprick, Assistant Planner

Date: July 6, 2016

Re: 12871 Weber Hill Road

On June 24, 2016, staff reviewed a building permit application for a new residence on property located at 12871 Weber Hill Road. A variance was issued by the Board of Adjustment to allow the front setback to be varied from the required 50 feet to 32.5 feet. However, the septic system will also encroach into the setback requirement. Per Ordinance Number 1948, approved March 10, 2015:

“Individual septic sewer disposal systems shall not be constructed within the minimum building setbacks...A variance from this restriction may be granted by the Board of Aldermen for good cause shown.”

Attached, you will find a letter, submitted by the permit applicant, asking for a variance.

RE: 12871 Weber Hill – Septic Sewer System

Dear Aldermen;

We are respectfully requesting that the Board of Aldermen grant Vanderbilt Homes, Inc., a variance from Ordinance Number 1948 in regards to the location of our proposed septic system and the required setbacks.

The site is irregular shaped and with the existing topography we are prohibited in usable area for our proposed septic system and new home construction. Furthermore the slope along the West side of the property has slope stability issues.

Brucker Engineering, our soil engineers, have completed soils analysis, extensive borings and reviewed the slope stability issues. They have determined and set the location of the proposed home and have designed the septic system in an area that will allow proper function and percolation.

In order to meet the parameters set forth by Brucker Engineering, we applied for and received a variance from the City to allow the proposed home to be built with a smaller front building line. It is our opinion that allowing the variance for the septic system will not have any adverse effect on any of the surrounding homeowners.

We are respectfully requesting a determination on this issue at the July 12th, 2016 meeting.

Should you need any further information to process this request, please feel free to contact me at 314-713-8716.

Sincerely,

Scott Paul
Vice President

BILL NO. 10

ORDINANCE NO. 2ND READING 7-12-16

AN ORDINANCE REGARDING OPEN MEETINGS AND RECORDS POLICY

WHEREAS, the Board of Aldermen ("Board") of the City of Sunset Hills, State of Missouri ("City") finds and declares that there is reason to believe that it needs to amend the Ordinance regarding open meetings and records policy;

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF ALDERMEN OF THE CITY OF SUNSET HILLS, ST. LOUIS COUNTY, MISSOURI, AS FOLLOWS:

Section 1. Article II, Division 2 of the Code of Ordinances shall be amended by adding new Sections 2-34 and 2-35 as follows:

Sec. 2-34. Journal of Minutes and Record of Voting.

A journal or minutes of open and closed meetings shall be taken and retained by the public governmental body, including but not limited to a record of any votes taken at such meetings. The minutes shall include the date, time, place, members present, members absent and a record of any votes taken. When a roll call vote is taken, the minutes shall attribute each "yea" and "nay" or abstinence if not voting to the name of the individual member of the public governmental body. Any votes taken during a closed meeting shall be taken by roll call. All public meetings shall be open to the public and public votes and public records shall be open to the public for inspection and duplication. Except as otherwise provided in Section 2-35, all votes taken by roll call in meetings of the Board shall be cast by members of the Board who are physically present and in attendance at the meeting. When it is necessary to take votes by roll call in a meeting of the Board, due to an emergency of the public body, with a quorum of the members physically present and in attendance and less than a quorum of the members participating via telephone, facsimile, Internet, or any other voice or electronic means other than video conference pursuant to Section 2-35, the nature of the emergency of the public body justifying that departure from the normal requirements shall be stated in the minutes. Where such emergency exists, the votes taken shall be regarded as if all members were physically present and in attendance at the meeting.

Sec. 2-35.

A. *Policy Statement.* While it is legally permissible for members of the City's public governmental bodies to attend meetings and vote via videoconference transmission, a member's use of videoconference attendance should occur only sparingly. Because it is good public policy for citizens to have the opportunity to meet with their elected officials face to face, elected members of a public governmental body should endeavor to be physically present at all meetings. The primary purpose of attendance by videoconference connection should be to accommodate the public governmental body as a whole to allow meetings to occur when circumstances would otherwise prevent the physical attendance of a quorum of the body's

members. A secondary purpose of attendance by videoconference should be to ensure that all members may participate in business of the public governmental body that is emergency or highly important in nature and arose quickly so as to make attendance at a regular meeting practically impossible. Except in emergency situations, all reasonable efforts should be expended to ensure that a quorum of the members of the public governmental body be physically present at the normal meeting place of the body.

B. *Videoconference Defined.* For purposes of this Section, "videoconference" or "videoconferencing" shall refer to a means of communication where at least one (1) member of a public governmental body participates in the public meeting via an electronic connection made up of three (3) components: (1) a live video transmission of the member of the public governmental body not in physical attendance; (2) a live audio transmission allowing the member of the public governmental body not in physical attendance to be heard by those in physical attendance; and (3) a live audio transmission allowing the member of the public governmental body not in physical attendance to hear those in physical attendance at a meeting. If at any time during a meeting one (1) or more of the elements of a videoconference becomes compromised (e.g., if any participants are unable to see, hear, or fully communicate), then the videoconference participant is deemed absent, and this absence should be reflected in the minutes.

C. *Frequency of Use of Videoconference Attendance.* Unless otherwise approved by the members in physical attendance at a meeting, a member of a public governmental body shall not attend more than three (3) meetings via videoconference in a rolling twelve-month period. Attendance via videoconference should only occur sparingly and for good cause. Such good cause shall include reasons such as serious illness or injury of the member or a member of his or her immediate family, including father or mother, spouse, sibling, child, or grandchild.

D. *Physical Location.* The City shall provide at the posted physical meeting location communication equipment consisting of an audio and visual display, and a camera and microphone so that the member(s) participating via videoconferencing, the members of the public governmental body in physical attendance, and the public in physical attendance may actively participate in the meeting in accordance with rules of meeting decorum. The communication equipment at the physical location of the meeting should allow for all meeting attendees to see, hear, and fully communicate with the videoconferencing participant.

E. *Voting.* Members of a public governmental body attending a public meeting of that body via videoconference are deemed present for purposes of participating in a roll call vote to the same effect as elected members of a public governmental body in physical attendance at a public meeting of that governmental body are deemed present. If any component of the videoconference communication fails during the meeting, the member attending the meeting by videoconference whose connection failed shall be deemed absent immediately upon such failure. If the public governmental body was in the act of voting, the voting shall stop until all of the components of videoconference attendance are again restored and the videoconference participant's presence is again noted in the minutes, or the member is determined to be absent.

F. *Closed Meetings.* In a meeting where a member of a public governmental body is participating via videoconferencing and the meeting goes into a closed session, all provisions of Missouri law and City ordinances relating to closed sessions apply. Upon the public governmental body's vote to close the meeting, all members of the general public shall not be present. Likewise, a member of a public governmental body participating via videoconferencing must ensure there are no members of the public present at his or her location to see, hear, or otherwise communicate during the closed session. The member must also take all reasonable precautions to guard against interception of communication by others.

G. *Minutes.* In any open or in closed session, the minutes taken should reflect the member, if any, participating via videoconference, the members in physical attendance, and members, if any, absent.

H. *Emergency Meetings and Quorum.* In addition to the provisions of Section 2-34, in the event that emergency circumstances prevent the members of a public governmental body to physically attend, the body may meet and vote by videoconference without the requirement that a quorum be physically present in the same place. Examples of such emergency circumstances include, but are not limited to, war, riot, terrorism, widespread fire, or natural disaster such as earthquake, tornado, hurricane, flood or blizzard. To the extent reasonably possible in such circumstances, the public governmental body shall use reasonable efforts to cause a physical location to be provided for public attendance and participation. The nature of the emergency shall be recorded in the minutes. If no emergency exists, a quorum of the public governmental body shall be physically present at the physical location for which notice of a meeting is provided.

Section 2. This Ordinance shall be in full force and effect from and after its passage by the Board and approval by the Mayor. Any ordinances inconsistent with this Ordinance are hereby repealed.

Re: Lot split for 13 Roosevelt

Application P-15-16 for a lot split at 13 Roosevelt Drive, to create two (2) lots for the purpose of constructing two (2) new single family residences was heard by the Planning and Zoning Commission on May 4, 2016. The Commission has recommended approval with the condition that the existing residence is demolished prior to obtaining a permit for either new residence.

Upon further review by staff, it has been determined that in order to be in compliance with setback requirements, the existing residence must be demolished prior to recording the lot split. Therefore, we are suggesting the Board's motion include the condition that the existing residence be demolished prior to the lot split plat being recorded.

Title: Lot Split by Nancy Thias to divide the property into two (2) parcels and build two (2) new single family residences at 13 Roosevelt Drive.

Date: May 2016

Proposed lot split line is shown in red.

Summary:

This petition is for a lot split for the property located at 13 Roosevelt Drive. The property is located on the west side of Roosevelt Drive, approximately 1500 feet from South Lindbergh Boulevard. The property is currently zoned R-2, Single Family Residential, 20,000 square foot minimum lot size. The properties to the north and east are also zoned R-2. The properties to the south and west are zoned R-1, Single Family Residential, 1 acre minimum lot size.

Staff analysis:

The property currently consists of 2.07 acres with an existing residence that was constructed in 1957. The property is zoned R-2, Single Family Residential, 20,000 square foot minimum lot size and 80 foot minimum lot width.

The property owners wish to divide the property, tear down the existing residence and build two new residences. The lots would both be 85 feet wide and consist of .71 acres (30,728 square feet) and 1.37 acres (59,589 square feet).

The new residences would be required to meet the setbacks for the R-2 zoning district. For a residence, those setback requirements are 40 feet from the front property line, 10 feet from the side property lines and 30 feet from the rear property line.

All other requirements of Appendix A Subdivision Regulations, Section 4 Lot Split Procedures would be met by this proposal.

In February of this year, the petitioner applied for a lot split. At that time, she proposed to keep the existing residence on one of the lots. This Commission asked staff to visit the property and perform an inspection of the property. After that inspection, the petitioner withdrew the application. This application is also for a lot split, however, the existing residence is proposed to be demolished.

Demolition of the existing residence should be a condition on this petition.

Re: Lot Split Sunset Terrace

Dear Gary:

This letter is to inform you that Missouri American Water Company has an existing 6 inch water main located on the north side of Roosevelt Drive that may be able to provide water service to the above mentioned Property. Both lots would have frontage to the existing 6 inch water main. This statement is conditioned on the premise that the domestic and fire flow requirements for this development do not exceed the quantity of water available in said 6 inch water mains. The existing water main ends at the end of your property at a point approximately 1099.5 feet west of the centerline of Matthews Lane. Water service can be obtained through the installation of a private service water line for each lot in your development.

Please be advised that you will need to contact the Operations Supervisor, Dave Brakensiek at 314.996.2466 or email dave.brakensiek@amwater.com for the required specifications concerning service line configuration, location, suitability and related meter box requirements or to discuss any other requirements for your project. If you do not contact the aforementioned Operations Supervisor concerning the service line requirements for your project, this may cause delays with the approval of your service line connection, possibly requiring additional modifications to your service line installation.

Sincerely,

RE: Soil Evaluation Report
Project Number: 15-M223

Dear Client:

Please consider this letter and attachments as a Soil Evaluation Report for the following property:

13 Roosevelt Drive
Repair
3 Bedrooms
St. Louis County, Missouri

The following are additional comments concerning your future on-site treatment system:

- 1) The area represented by each sample site is defined by landscape position.
- 2) Overland water flow and runoff water from roofs needs to be diverted away from the absorption field.
- 3) Do not disturb absorption field prior to system installation.
- 4) The treatment system should be installed by a registered installer.
- 5) Installation should be done when soil conditions are dry.
- 6) Consult with your administrative authority.

The soil information contained in this report is intended to assist the administrative authority in their evaluation of your property for an on-site treatment system. Any other conclusions or interpretations will be outside the scope of this report. On-Site Soils does not represent nor warrant the operation or functionality of any installed system.

P-17-16

Title: Final Development Plan for redevelopment of the site at 10300 Watson Road. This is a resubmittal of P-08-16, which was denied by the Board of Aldermen.

Petitioner: Don Jacobsmeyer
11420 Gravois Road
St Louis, Missouri 63126

Owner: 10300 Watson Rd LLC
11420 Gravois Road, Suite 200
Saint Louis, Missouri 63126

Date: June 2016

Summary:

This application is for a Final Development Plan to redevelop property located at 10300 Watson Road. The property is located on the south side of Watson Road, approximately 0.27 mile east of South Lindbergh Boulevard and is also known as the Color Art building. The property is currently zoned PD-LC(B) Planned Development - Limited Commercial, 1-3 acre lot size. The properties to the north (across Watson Road) east and west are zoned C-1. The properties to the south are zoned R-4, Single Family Residential 10,000 square foot minimum lot size.

Recent applications:

P-08-16 was a petition for a final development plan. The Planning & Zoning Commission recommended approval of the petition on March 2, 2016. The Board of Aldermen denied the petition on April 28, 2016. This is a resubmittal of that Final Development Plan, to redevelop the property at 10300 Watson Road.

P-21-15 was a petition to rezone the property from C-1 Commercial District to PD-LC(B) Planned Development - Limited Commercial, 1-3 acre lot size. It was approved in September 2015.

P-22-15 was a petition for Text Amendment to add "Indoor storage facilities" as a conditional use in the C-1 Commercial District. It was approved in September 2015.

P-23-15 was a petition for Preliminary Development Plan for the property. It was also approved in September 2015 with the following conditions:

1. Petitioner shall post a resident caretaker/watchman on the premises 24 hours per day, 7 days per week.
2. Petitioner shall demonstrate approval from MoDOT for landscaping buffer in the right of way of Watson Road.
3. There shall be no retail sales from the storage stalls.

A-11-15 was a petition to vary the side setback requirement, buffer width and site coverage allowed. The Board of Adjustment approved that petition in July 2015.

Staff analysis:

The petitioner is proposing to redevelop this property, using the existing structure and parking lot. The structure will be used for indoor storage, office space and caretaker's residence.

There has been one change made to the plan subsequent to the approval of the Preliminary Development Plan. All vehicular access to the structure will now be on the front of the building.

The petitioner is proposing to use MoDOT right of way to meet the buffer requirement along Watson Road. The applicant has provided written agreement from MoDOT, allowing the petitioner to use the right of way for landscaping purposes.

This Final Development Plan is the last step in the process for redevelopment of this property. The Final Development Plan process requires action by the Board of Aldermen and the Mayor. If approved, the Final Development Plan must be recorded with St Louis County.

NOTICE

NOTICE IS HEREBY GIVEN THAT AT 7:00 P.M. ON WEDNESDAY, JUNE 1, 2016, THE PLANNING AND ZONING COMMISSION WILL MEET IN THE ROBERT C. JONES CHAMBERS OF CITY HALL AT 3939 S. LINDBERGH BLVD. Petitioner: Mike Whalen, Whalen Custom Homes

Owner: Geraldine & Kenneth Thompson

Date: June 2016

Summary:

This petition is for a lot consolidation of properties at 415 and 421 Spears Street and 424 Handy Street. These 12 lots were originally part of Meacham Park Subdivision. The properties are located between Spears Street and Handy Street, approximately 350 feet west of Tolstoi. These properties, along with all of the surrounding properties, are zoned R-6, Single Family Residential, 5,000 square foot minimum lot size.

Staff analysis:

The total area of these consolidated lots is 30,000 square feet. The petitioner has the properties under contract and proposes to consolidate the lots and construct one (1) single family residence. At this time, there is not a proposal to change the zoning. The R-6 zoning district has the following setback requirements: 20 feet from the front property line, 3 feet from the side property lines and 15 feet from the rear property line. The proposed residence would be required to meet those setbacks.

A lot consolidation follows the same procedures as a record plat. This petition has met all of the requirements of Appendix A, Subdivision Regulations, Section 3.6 Record Plat. No new improvements or common ground are proposed. If approved by the Board of Aldermen, the lot consolidation must be filed with St. Louis County Recorder of Deeds Office within 60 days.

Title: Amended Development Plan for the installation of two (2) above ground fuel tanks at 13084 Gravois Road.

Petitioner: Sunbelt Rentals Inc
2341 Deerfield Road
Ft Mills, South Carolina 29715

Owner: Winter Brothers Material Company
13098 Gravois Road
Sunset Hills, Missouri 63127

Agent: Kent Nurnberger, Grimes Consulting

Date: June 2016

Summary:

This application is for an Amended Development Plan for property at 13084 Gravois Road. The property is located on the southwest corner of Gravois Road and Winter Industrial Drive. The property is currently zoned PD-LI, Planned Development-Light Industrial. The property to the north (across Gravois Road) is zoned R-1, Single Family Residential, 1 acre minimum lot size. The property to the east (across Winter Industrial Drive) is zoned PD-LI. The properties to the south and west are zoned NU, Non-Urban, 3 acres minimum lot size.

Staff analysis:

The last petition for this property was in 2014, when the petitioner received approval of an Amended Development Plan to construct a 1200 square foot addition to the existing building.

Per Appendix B Zoning Regulations, Section 4.10-25 Changes and amendments to final development plan:

- (A) Minor changes: Minor changes in the location, siting and height of buildings and structures may be authorized by the zoning enforcement officer if required by engineering or other circumstances not foreseen at the time the final plan was approved. No change authorized by this section shall cause any of the following:
1. A change in the use or architectural character of the development, including changes in any exterior finish material approved by the board;
 2. An increase in building or site coverage;
 3. An increase in the intensity of use (e.g., number of dwelling units);
 4. An increase in vehicular traffic generation or significant changes in traffic access and circulation;
 5. A reduction in approved open space or required buffer areas; or
 6. A change in the record plat.

- (B) Plan amendments: All proposed changes in use, or rearrangement of lots, blocks and building tracts, changes in the provision of common open spaces, and changes which would cause any of the situations listed under paragraph (A) above shall be subject to approval by the board. In such event, the applicant shall file a revised development plan and be subject to the requirements of this section as if it were an entirely new application.

The applicant is currently occupying the structure. The proposed addition, per Appendix B Zoning Regulations, Section 4.10-25 Changes and amendments to final development plan necessitate the need for this application and the application of all current code requirements.

The petitioner is proposing to install two (2) above ground fuel tanks to the property, behind the existing building. The tanks would be installed on an existing concrete pad. The location of the dumpster enclosure has also changed slightly, from the original proposed location.

This property is affected by 100 year flood plain. However, the building and this concrete pad are above the base flood elevation. All current code requirements would be met by this proposal.

AN ORDINANCE AMENDING SECTIONS 4-51 AND 4-52 OF THE SUNSET HILLS CITY CODE RELATING TO PROHIBITED CONDUCT FOR LICENSEES AUTHORIZED TO DISPENSE ALCOHOLIC BEVERAGES.
