

Dear Residents,

The question has been raised as to when City parks can reopen. I was on a conference call with Dr. Sam Page this week and he is asking to extend the order to mid May but will be evaluated the end of April.

If things are improving City staff would like to open the Watson Trail walking paths, the Minnie walking paths and the Bander Park driving range the end of April.

We will have to wait and see.

I received a complaint from a resident that teenagers were playing basketball on the Lindbergh property this week. I notified Lindbergh and they are going to barricade their area. We just have to be careful and not put people in jeopardy too soon.

So the earliest could possibly be the end of April.

Stay healthy!

Sincerely,
Mayor Pat Fribis
